Capacity kg	6 / 15	15 / 30	12 / 30
Division g	2 / 5	5 / 10	2 / 5

OPTIONS AND ACCESSORIES

- Bowl-shaped pan.
- Kit Radio Module for LAN connection.
- Cash register drawer opening.
- Power 12/24 Vdc for specific auto market.
- Column with customised height.

Elegant design and robust scale, designed with selected materials, perfect for all applications in the retail trade. Particularly suitable for working by battery.

MAIN FEATURES

- Dual alphanumeric backlit white LCD display, operator side and client side. High resolution and visibility even in poor lighting conditions, line for advertising messages or queue-system. The backlight function can be removed.
- Fast and accurate mechanical and touch keyboard, with 66 keys including 33 functional keys and 33 easily configurable for PLU's, TLU's and 6 additional operators.
- Thermal printer speed of 80 mm/sec for normal thermal paper or for Linerless adhesive with paper 57 mm wide, and outer diameter max. 50 mm. Print width of up to 48 mm.
- System for easily loading the paper.
- Structure:
 - Die-cast aluminium base;
 - Stainless steel structure and high quality polymer.
- Large-sized plate in stainless steel, with scotch brite finishing. Dimensions 370 x 310 mm (L x W).
- Power 230 Vac, equipped with built-in rechargeable 24 Vdc batteries, long battery life of 5 days in intensive use (excluding radio connection).

FUNCTIONS

- Database of 1000 PLU's, 66 with direct access.
- Up to 10 PLU groups available.
- Database of 100 ingredient lists.
- Up to 4 VAT rates.
- Up to 10 advertisement messages, configurable display mode.
- Up to 8 programmable payment modes.
- Two kinds of short and long term totals
- Management of 6 / 12 operators.
- Ability to program up to 3 password levels.
- Single item.
- PLU priority.
- Weighing tare, operator tare, PLU's tare, pre-stored and configurable tare.
- Reopening of the last tickets, discounts, rebates, cash management, customer management.
- Management of logos and firmware by the software

I/O SECTIONS

- 2 RS 232 interfaces for connection to: PC, modem, scanner, cash register (brands and models best known on the market).
- 1 RS 485 for connection with up to n° 4 GPE scales in a local network.
- 868MHz radio module (optional) for connecting up to 4 scales in the network.
- Cash register drawer opening (optional).
